General News and Updates

Recycling News You Can Use

Ever think about the garbage bin we put out every Sunday and wonder if there are any ways to reduce what you throw away? Sure we have the ability to recycle but a lot of what we put in our trash could be re-used or re-purposed in some other way. See below for a tip! Questions about this recycling tip or what can be recycled in your curbside bin? Reach out via email to Hamptons neighbor [Kim Aichele](#).

March - Don't Just Recycle - Reduce and Reuse! - Waste Reduction Tip #10

While recycling is one tool we have to reduce what we send to a landfill, reducing and reusing is even more important in helping our planet. By reducing how much we buy and use and re-using items in our every day lives we reduce green house gases/pollution, save energy, and save money. [Click here](#) to learn more of what you can do from the EPA. Want to reduce how much junk mail you receive? - [click here](#) to do so. I did this in December and have noticed a reduction of about 30% in how much junk mail I receive. **Disclaimer:** I did need to pay \$4 for this service for 10 years. As you can probably tell, I am big on reducing waste. I work and pack my lunch so this is what I do below:

A few simple yet effective ways reduce waste:

- Carry a refillable/re-useable water bottle.
- Pack your lunch in re-useable containers
- Bring your own bags to the grocery store
- Avoid single use plastics by: using a metal straw, bringing your own silverware, using cloth napkins, and using a permanent plate.

There are so many more ways to reduce and reuse - these are just a few. Would love to hear of other ideas people have out there! Please email me at kdaichele@me.com to share more.
